

identical: the plasticity rule, the homeostatic budget,
the inhibition, the wiring distribution, the horizon,
the survival criterion

*only the excitatory
conductance set differs*

follower-type set
(PY 1)

pacemaker-type set
(AB/PD 2)

RESCUED

**31 of the 33 networks that
collapsed without the rule**

ELIMINATED

**6 of the 11 networks that
survived without the rule**
